RYDNY IHIMS

Web Developer | +371 25 737 618 | rydny01@gmail.com
Riga, Latvia | linkedin.com/in/rydny-ihims | Github | Portfolio-site

PROFESSIONAL SUMMARY

I have built everything from an ecommerce store to a corporate and event website over the past three years. I work with HTML, CSS, JavaScript, PHP, C++ and React, along with an understanding of SEO and marketing to think beyond the code - what the site needs to do, who it's for, and how well it works. Fluent in English and French. Seeking a web developer position where there's real work to be done.

SKILLS

- HTML5 & CSS3
- JavaScript (ES6+)
- React.js
- PHP
- Python
- C++
- MySQL & SQL
- SEO Optimization
- Digital Marketing
- Git / VS Code

WORK EXPERIENCE

Front-End Developer — **Jan 2023 – May 2025**
Altays trading — *Dubai, UAE*

- Built and maintained responsive interfaces for 3 client websites, ensuring consistent experience across mobile and desktop.
- Fixed cross-browser layout issues that were breaking the checkout flow on Safari and Firefox.
- Resolved a Google Calendar API integration issue that increased successful appointment bookings by 30%.
- Reduced page load time by 40% through image optimization and cleaner CSS structure.
- Worked with the clients to translate their idea into a design that matched what they needed.

PROJECTS

Full-Stack E-Commerce Website — **2023 – 2024**
Personal Project — Furniture Retail

- Designed and built a fully functional furniture e-commerce platform using HTML, CSS, JavaScript, and PHP.
- Developed a responsive front-end with product image galleries, animated UI, navigation menus, and a dynamic shopping cart built in JavaScript.
- Implemented secure user authentication and backend data validation in PHP to protect customer data.
- Resolved cross-browser and cross-device compatibility issues to ensure consistent user experience.

Front End developer **2023 – 2024**

Freelance client project— Crypt8 (crypto platform)

- Collaborated with a team of developers to build and ship new dashboard features for a live crypto platform..
- Diagnosed and resolved front-end bugs across the platform to keep the product stable.
- Implemented secure user authentication and backend data validation in PHP to protect customer data.
- Structured customer logs.
- Improved overall performance by 25% through front-end optimizations.
